Process for selection as StudiTUM group:

Accredited, student groups can apply for funding from TUM starting in 2019 (procedure for accreditation). Funded groups receive storage space and room booking rights in the students’ houses (StudiTUM houses).

The application is processed via an online form.

1. Selection process

Stage 1:

Call for applications for a certain number of positions and opening of the online form. Incomplete applications and applications after the deadline will not be considered. For an application, a group has to be accredited.

Stage 2:

Applications will be reviewed by the Commission members. At the request of a commission member, a group may be asked to make a five-minute presentation followed by a five-minute Q&A session by the commission.

Stage 3:

Final selection is made by the Commission. The list of groups to be funded will be presented to the FSR at the next meeting. The FSR can vote on the deletion of individual groups or the whole list. After the list of funded groups is decided, all groups will find out whether they have been selected for funding.

If there are groups among the applications that have never been funded before, up to five places are to be given preferentially to these groups.

2. Commission

The Commission is composed of at least five and a maximum of twelve representatives delegated by the Student Council and one person delegated by TUM. For the organization and implementation of the process, at least one person is additionally assigned by the Student Council, who chairs the Commission. In addition, the Commission can appoint advisory members. The Commission has a quorum of 2/3 of the votes present.

3. Further information

Funding starts at the beginning of the summer semester and is valid for one year. Funding in one year in no way implies funding in the next year. Groups cannot gain funding during the year and there is no waiting list.

Groups can still be accredited throughout the year.
