Appointment request to the General Student Advisory Service

TUM's General Student Advising is here for you before and during your studies!

We are happy to advise you about topics such as studying at TUM, making decisions that match your individual situation and changing your studies.

Please mention in the form if your request is urgent considering the waiting time due to a high number of requests.

Before you request an appointment, please check tum.de for answers to your questions.

Please also note that we cannot comment on whether your local high-school leaving certificate gives you access to studying at TUM or not as this is something that Uni-Assist does.

Further note that if your query is merely admission-related, the right point of contact would be the studium@tum.de.

Since we have specialists for different target groups, we need some basic information to get you to the advisor that is responsible for you:
The data collected here will only be used for the organization of the event. This includes in particular
- Managing registrations
- Contact the participants in the course of the organization

Only the event organizers have access to the personal data.

Deletion

The data will be deleted 4 weeks after the event.

Consequences in the absence of consent:

You have the right not to agree to this declaration of consent - however, since the data marked as mandatory fields are required to register for the event, we cannot complete your registration without your consent.

Your rights:
- a right to information
- a right to correction or deletion or restriction of processing or a right to object to processing
- a right to data portability
- there is also a right of appeal to the Bavarian State Commissioner for Data Protection

Consequences of withdrawing consent:

As soon as the cancellation notice is received, your data may not be processed further and will be deleted immediately. Withdrawing your consent does not affect the legality of the processing carried out up to that point. Please send your cancellation to the address below.

Contact organization team:

Technische Universität München
TUM Center for Study and Teaching
Team Studienberatung & Coaching
Arcisstraße 21
80333 München

If you have further questions regarding data protection, please contact the data protection officer: www.datenschutz.tum.de
