COVID-19: Pandemics in Global Health

Prof. Dr. med. Andrea Winkler
Co-Director of the Center for Global Health of the Technical University of Munich

Prof. Dr. med. Clarissa Prazeres da Costa
Co-Director of the Center for Global Health of the Technical University of Munich

Moderation: Univ.-Prof. Dr. med. Marion Kiechle

Thema-Beschreibung: ...

Professor Andrea Winkler

Professor Clarissa Prazeres da Costa

Professor Prazeres da Costa is a consultant microbiologist, immunologist and infectious disease specialist, long-term lecturer, co-founder and co-director of the Center for Global Health at the Technical University of Munich (TUM) and full professor heading her own research group “Parasite Immunology”. For 14 years she has been the head of the diagnostic parasitology department and teaching unit in the Institute of Medical Microbiology, Immunology and Hygiene at TUM. Her scientific interests focus on basic immunological aspects of host-parasite interaction and type 2 immune disorders such as allergies as well as zoonotic and neglected tropical diseases (NTD) in relation to maternal and child health ranging from molecular studies, experimental models to clinical research in Africa. Her Global Health activities focus on NTDs, antimicrobial resistance (AMR) and Women’s Health. She publishes in high-ranking journals. Her research is funded, amongst others, by the German Research Foundation (DFG) including large-scale consortia (SFB), Alexander-von-Humboldt- Stiftung and by the Germany Ministry of Education and Research (BMBF).

Motto: Study infectious diseases, teach the next generation and generate impact on a societal level
