Tenth Lecture: Why there is Glory in Prevention?

Moderation: Univ.-Prof. Dr. med. Marion Kiechle

Why there is Glory in Prevention? Local and National Strategies for Infection Prevention

Professor Clarissa Prazeres da Costa
Institute for Medical Microbiology, Immunology and Hygiene

Nina Wantia M.D.
Institute for Medical Microbiology, Immunology and Hygiene

Zoom Webinar

Professor Clarissa Prazeres da Costa MD

Professor Prazeres da Costa is a consultant medical microbiologist, immunologist, and infectious disease specialist, long-term lecturer, co-founder, and co-director of the Center for Global Health at the Technical University of Munich (TUM). For 17 years, she heads the research group “Infection and Immunity in Global Health” as well as the diagnostic parasitology department and teaching unit at the Institute of Medical Microbiology, Immunology, and Hygiene at TUM. Her scientific interests focus on basic immunological aspects of host-parasite interactions of zoonotic and neglected tropical diseases (NTD) and type 2 immune disorders such as allergies in relation to maternal and child health involving molecular studies, experimental models, and large-scale clinical trials in Africa. Her Global Health activities range from novel technologies, antimicrobial resistance (AMR) to Women’s Health. Her research is funded, amongst others, by the German Research Foundation (DFG) including large-scale consortia (SFB), Alexander-von-Humboldt-Foundation, and by the Germany Ministry of Education and Research (BMBF). Since March 2020 she is a member of the COVID-19 Expert Team at the Technical University Hospital (Klinikum rechts der Isar).
