

Appointment request to the General Student Advisory Service

TUM's General Student Advising offers its services before starting your studies and in the course of it. We will gladly talk with you about choosing a program and making a solid decision. We also give orientation towards studying or changing your studies if necessary. Our services are available for national as well as international (prospective) students.

Since we have specialists for different target groups, we need some basic information to get you to the advisor that is responsible for you:
